

Preface

Maria BOTTIS

It is a great joy to introduce here the book of proceedings of NETTIES 2018, 'Access to Knowledge in the 21st century: the interplay of society, education, ICT and philosophy', co-organized by the Ionian University and IAFES.

NETTIES 2018 brought together in the Ionian University, Department of Archives, Library Science and Museology, in Corfu, Greece, a great number of important scholars from many different countries, disciplines and fields, to present their work around the concept of access to knowledge. The interdisciplinary nature of the conference allowed the participants to look at the conference themes from many different scientific angles; we hope that the book will contribute to a wider interpretation of current knowledge on the particular topics explored by our esteemed colleagues.

We thank the Reading Society of Corfu for the wonderful venue in the old city of Corfu, the perfect place to host an access to knowledge conference. We also thank Katerina Tzali, head of the organizing committee, Roubini Oikonomidou, for her constant support, and all students who helped with the organization. We are sure all participants will remember NETTIES 2018 very fondly and look forward to future collaboration with IAFES.

Maria Bottis
Co-Editor and local organizer
